

Science

In Science we will cover Electricity, looking at appliances that use battery and mains power. We will go into depth establishing what constitutes electrical safety and construct series circuits with one and two components, making our own switches as a topic investigation.

Homework

Homework will be handed out every Friday to be completed and handed in by the following Wednesday. Both Mrs Sevinc and Miss Denney are more than happy to support any child who is unable to complete their homework and will do so in school time. A spelling test will take place every Wednesday for the spellings given as homework the previous Friday.

Reading Challenge

The children in 4D will be motivated by our reading challenge so please remember to sign and make a comment in your child's home/school diary when you have heard them read so they can complete a step on their reading mountain and work towards receiving a prize when they have completed their climb!

P.E

They will have a P.E lesson as part of their statutory physical education on Wednesdays and Fridays. Please ensure that a full P.E kit is brought to school.
