

Week 12

Maths - Time

Monday

At a Sports Day, the running race, the egg and spoon race and the sack race are all completed over the same distance.

Which race do you think will be won in the quickest time? _____

Which race do you think would be won in the slowest time? _____

Have an egg and spoon race with a friend or family member, time yourselves and see who is the fastest.

What other races could you have, maybe you could use an old pillow case to have a sack race, don't forget to time yourselves and take photos for us.

Tuesday

Read the clues to work out the order of these children's birthdays.

Gemma's birthday is after Mike's

Eve's birthday is before Gemma's

Mike's birthday is first in the year.

If they have birthdays in different months, think of five different possibilities for their birthdays.

For example; Mike - January

Eve - February

Gemma - March

Wednesday

It took Anna 12 seconds to run from one side of the playground to the other.

Estimate how long it would take her to run half way across the playground.

Estimate how long it would take her to run across the playground and back again.

Estimate how long it would take her to run across the playground four times.

In a race the winner finished in 14 seconds.

The person who came second was 2 seconds behind the winner.

How long did they take? _____

The person who came third was 5 seconds behind the person in second.

How long did they take? _____

How much longer did they take than the winner? _____

Thursday

Look at the calendar.

Which date is the first Tuesday of the month? _____

On what date is the second Tuesday? _____

What day will it be five days after the 16th? _____

What day is it four days after the 23rd? _____

SUN	MON	TUE	WED	THU	FRI	SAT
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

If January is the first month, which month is the third one?

Which month comes after September?

Which month comes before July?

Friday

Today have some fun, design an obstacle course that could include some of the activities from Monday.

Estimate how long it could take you to complete your obstacle course, challenge other people in your family to complete the race.

Who is the fastest? _____

Who is the slowest? _____

Can you record the times and put them in order from the fastest to the slowest?

Monday	This week we would like for you to write your own non-chronological report. We have done lots of these in class, there is an example for you to look at on the next page. A non-chronological report is a report that can be written in any order. We would like for you to pick your favourite animal and write a report about them. For today, we would like for you to write a title for your report and an introduction. An introduction will tell the reader what the report will be about. You can also use today to draw and label a picture for your report.
Tuesday	Your subheading for today is 'Where Do They Live?' Write this in your home learning book. With an adult, research online about where your animal lives. We have done some work about this as part of our Science work about habitats. You may want to write notes as you research before writing up a paragraph for your report in neat.
Wednesday	Today's subheading is 'What Is Their Diet?' Remember, a diet is what an animal eats and drinks. Again, research about your animal and take notes about what it is they eat before writing this up as a section for your report. You may want to add an extra labelled picture.
Thursday	For today we would like for you to write the subheading 'Interesting Facts'. For today's section of the report, we would like for you to write all about anything exciting you have learnt about your chosen animal. You may want to do some extra research and note taking to help you, before writing up your report. We can't wait to read what you have found!
Friday	Now you have created your own reports, we would like for you to read the report below about Javan Rhinos and answer the questions below. If you do not have a printer write your answers in your home learning books.

Guy Fawkes

Who was Guy Fawkes?

Guy Fawkes was born in 1570 in York, England.

He joined a group that wanted to use gunpowder to blow up the Houses of Parliament in London, killing King James I and his government.

'The Gunpowder Plot' group was led by Robert Catesby.

They were found out on 5th November, 1605.

What was the need for 'The Gunpowder Plot'?

King James had different religious beliefs to Guy Fawkes and his group. They felt that the King was treating them unfairly.

Creating Bonfire Night

- King James wanted to celebrate because he survived the planned attack.
- He officially made the 5th of November Bonfire Night in Britain.
- Straw dummies were burned to show that no one could get away with hurting the king.

What happened to Guy Fawkes and the other plotters?

Guy Fawkes was the expert and was found in charge of the gunpowder. He was questioned and tortured, then confessed.

All the men involved were imprisoned and were going to be killed for treason - plotting to kill the king.

Before Guy Fawkes could be hanged, he broke his neck and died in 1606.

Javan Rhinos

Rhinos can be found in warm countries, as they don't like the cold. They like lots of space to move around and plenty of plants and fruit to eat. There are different kinds of rhinos. They differ in size and some have longer horns.

About Javan Rhinos

- They are smaller than African rhinos, with small horns on their noses.
- They don't like cold or dry places. They like to live where it is damp and there are plenty of plants.
- They sleep during the hottest part of the day and come out when it is cooler.
- Javan rhinos have thick, tough skin which protects them from animals that might want to hurt them.

An Endangered Animal

Sadly, Javan rhinos are being hunted, which means not many are left. We call this being 'endangered'. There used to be thousands of Javan rhinos but now there are only about 60 left in the wild. If people don't stop hunting them, there will be none left in just a few years' time.

Javan Rhinos - Questions

1. Why do rhinos live in warm countries?

2. What do rhinos like to eat?

3. Which is smaller, an African rhino or a Javan rhino?

4. How many Javan rhinos are left in the world?

5. What will happen if Javan rhinos aren't protected?

6. Write one sentence to describe a Javan rhino.

Science- Living Things and their Environments

We are going to revisit seasons.

Can you describe what happens in each season?
What is the weather/temperature like? Do the days get longer or shorter? What animals/insects might you see?

Can you match the correct picture to the right season?

Challenge: Can you think of 2 of your own?

History- Changes in travel and Flight

Look at the video explaining all about the Wright Brothers.

<https://www.youtube.com/watch?v=Qt3pry6cWJM>

Now look at the comprehension activity. Read the information and answer the questions.

RE- Baptism

Watch these videos explaining all about Baptism

<https://www.youtube.com/watch?v=8Mpy8Bi98Qc>

<https://www.youtube.com/watch?v=n0kzf9fHcKY>

<https://www.youtube.com/watch?v=EnpXtAPFZgc>

Can you label the picture?

Challenge: Have you ever been to a baptism?

Write about your experience and what you could see?

PSHCE-

Complete the sheet on how we can look after our environment.

Design technology-

Can you design an aircraft?

When you have designed it, you may want to have a go at creating a model of it.

The Wright Brothers

Wilbur and Orville Wright were brothers. They grew up in the USA. They built and tested the first aeroplane.

Childhood

The brothers loved to build things and test new ideas. Their father gave them a toy helicopter. This made them want to fly. They also liked to find out about how birds fly.

Their Flights

Orville made the first flight in an aeroplane in December 1903. It only lasted for 12 seconds but the brothers did not give up.

Wilbur tried to fly a new aircraft in November 1904. The flight lasted for over five minutes.

Timeline

Questions

1. What did the Wright brothers do? Tick one.
 - Built and tested the first aeroplane.
 - Built and tested the first rocket.
 - Built and tested the first hot-air balloon.

2. What did their father give them? Tick one.
 - a toy bird
 - a toy train
 - a toy helicopter

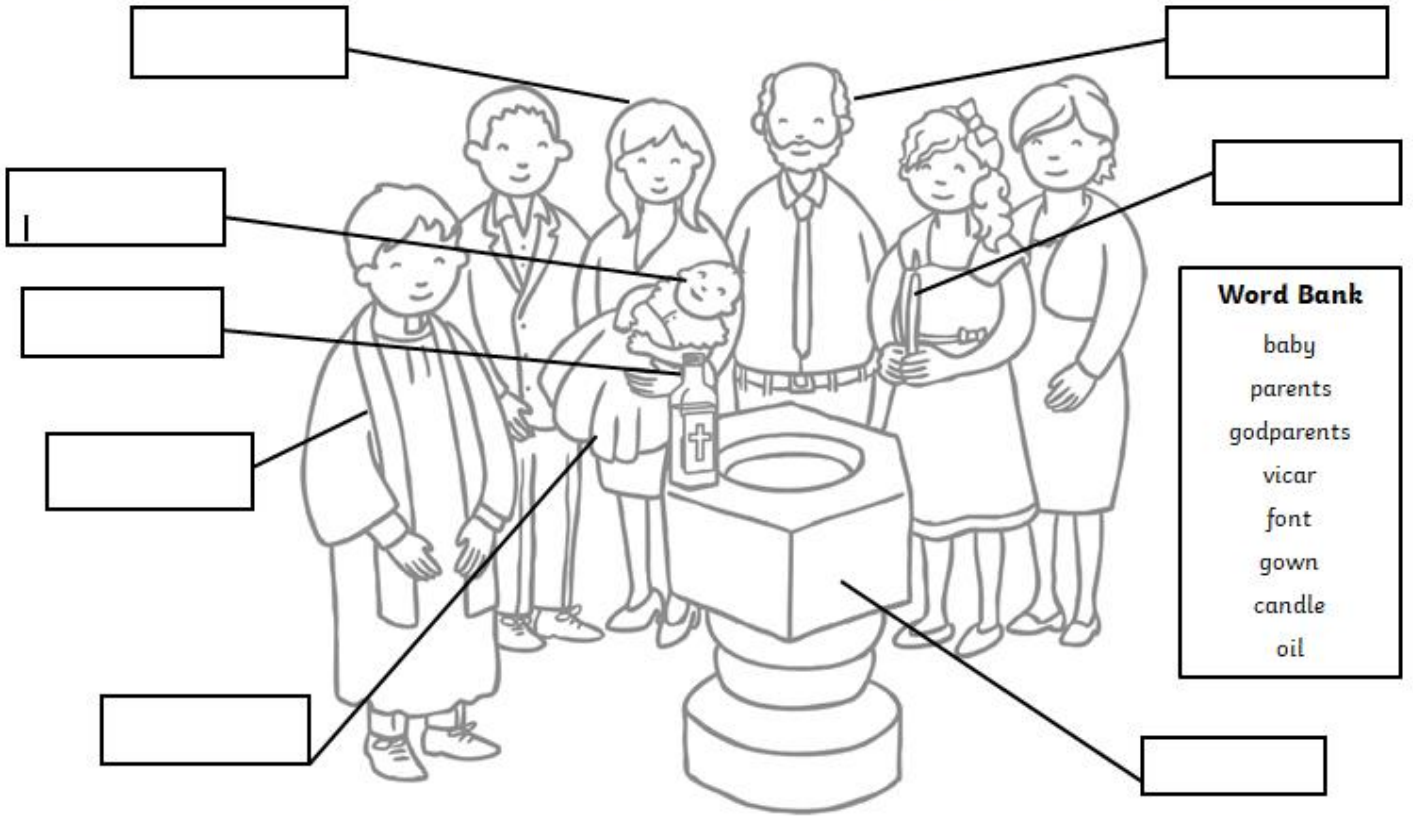

3. How long was the first flight? Tick one.
 - 12 days
 - 12 seconds
 - 12 minutes

4. Who flew a new aircraft in November 1904? Tick one.
 - Orville
 - Wilbur
 - their father

5. What happened in 1961? Tick one.
 - The first flight into space.
 - The first flight in a helicopter.
 - The Wright brothers were born.

A Baptism Scene

Label the baptism scene

Word Bank

baby
parents
godparents
vicar
font
gown
candle
oil

Have you ever been baptised? _____

Write about your experience and what you could see.

Science

Draw and label your favourite things about each season.

Spring

Summer

Autumn

Winter

Match the pictures with the right season. Then see if you can add some of your own pictures.

	
Rain	Blossom
	
Sun lotion	Summer sun
	
Sunglasses	Chick

Caring for the Environment

Write about ways in which you could care for the environment in school and at home, e.g switching off lights, recycling etc.

School	Home
