

# Week 15, Day 2

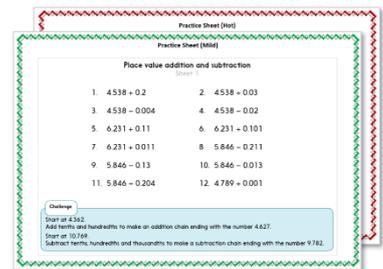

## Tell the time to the half hour (1)

Each day covers one maths topic. It should take you about 1 hour or just a little more.

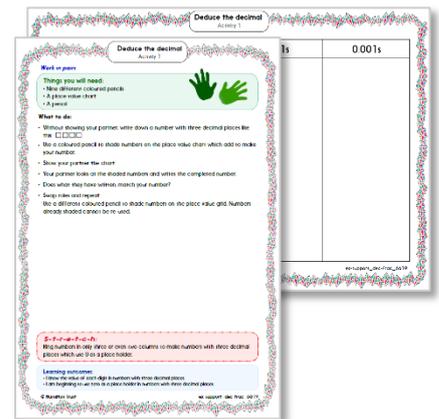

1. Start by reading through the **Learning Reminders**. They come from our *PowerPoint* slides.

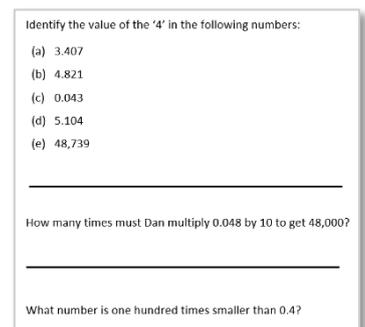

2. Tackle the questions on the **Practice Sheet**. There might be a choice of either **Mild** (easier) or **Hot** (harder)! Check the answers.

3. Finding it tricky? That's OK... have a go with a grown-up at **A Bit Stuck?**

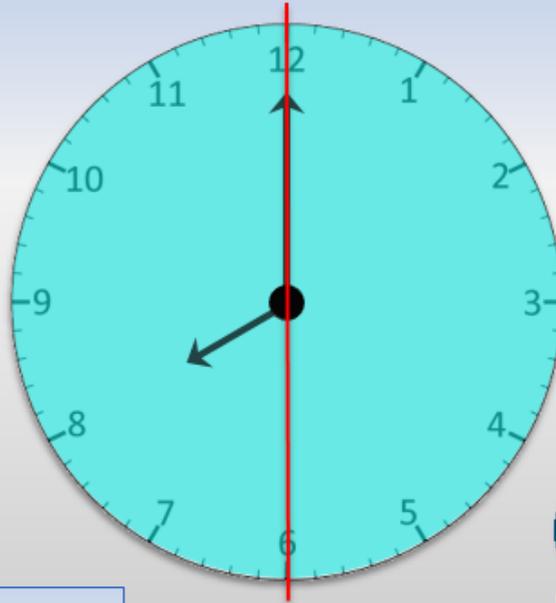

4. Have I mastered the topic? A few questions to **Check your understanding**. Fold the page to hide the answers!

# Learning Reminders

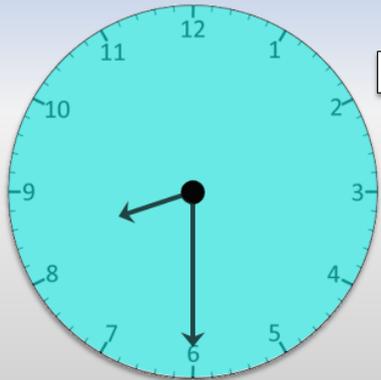

Tell the time to the half hour.

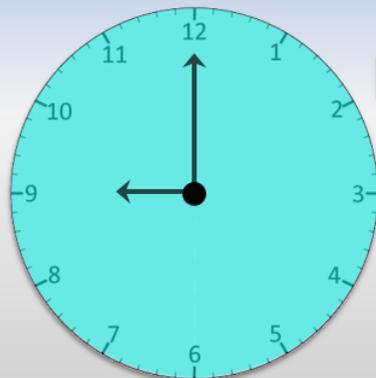

It's 8 o'clock

The line through the 12 and 6 cuts the clock in half! When the minute hand has travelled around to the 6 it has gone half way around the clock and we call this time half past.

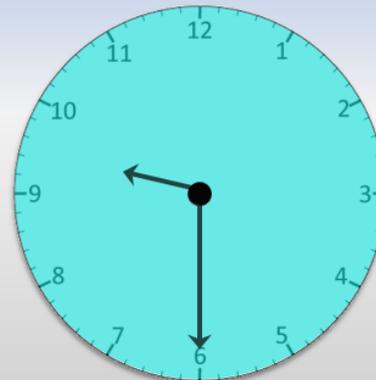

Let's count around in half hours to 10 o'clock...

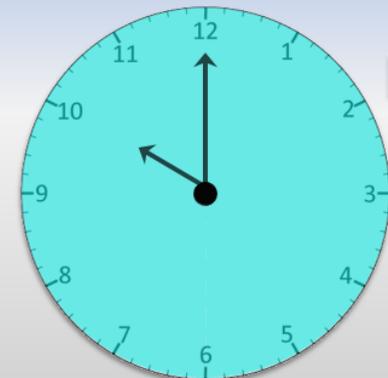

Half past 8.

9 o'clock.

Half past 9.

10 o'clock.

## Learning Reminders

Tell the time to the half hour.

Remember we can also write times in the **digital form**, like the time on a mobile phone or digital watch.

The number before the two dots tells us the hours and the number after the minutes.

Half past 9.

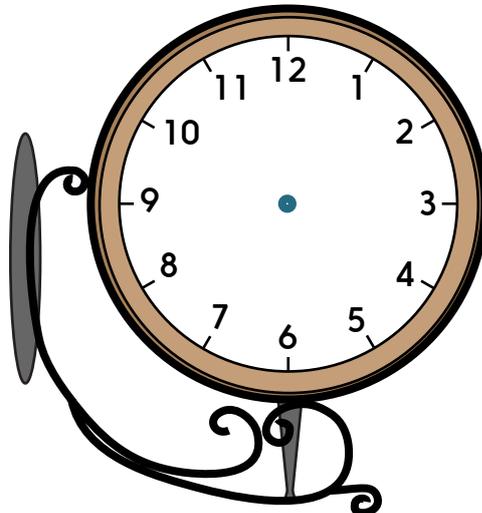

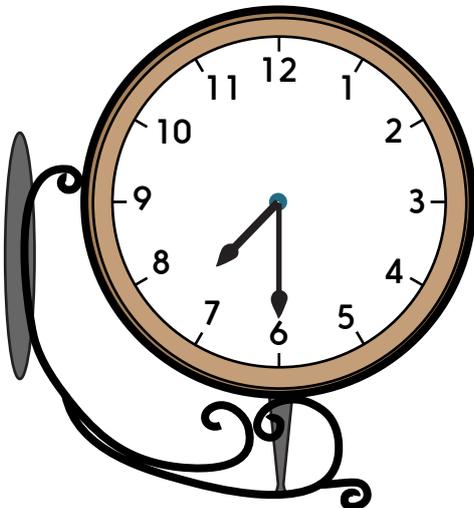

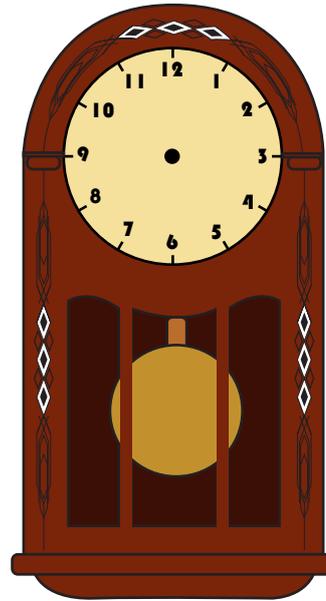

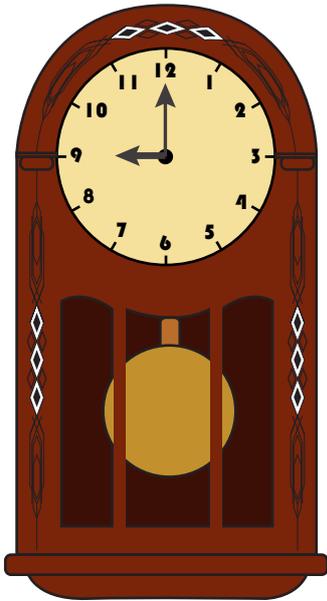

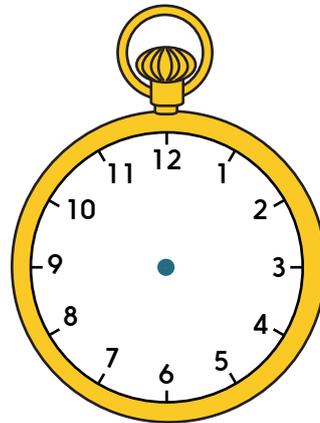

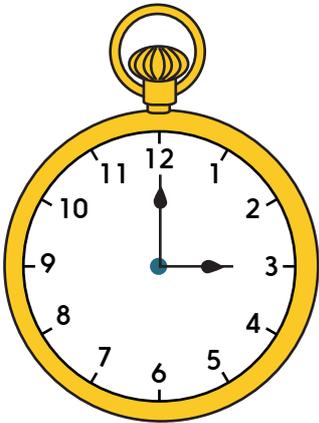

What does this time look like on a digital watch?

9:30

## Practice Sheet Mild

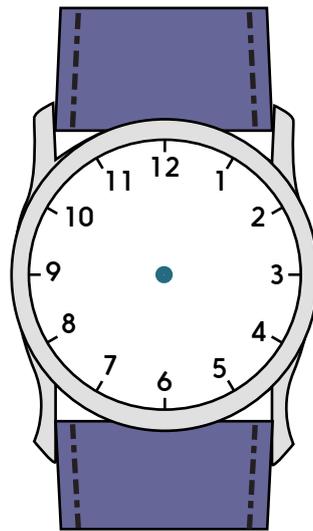

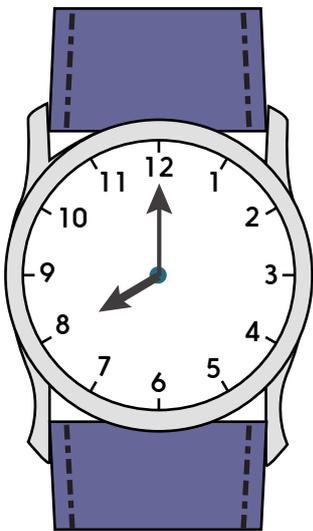

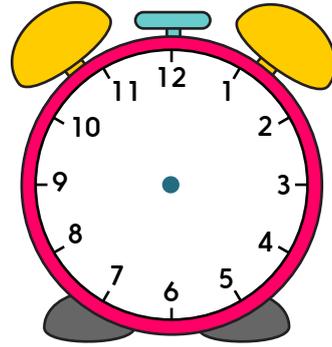

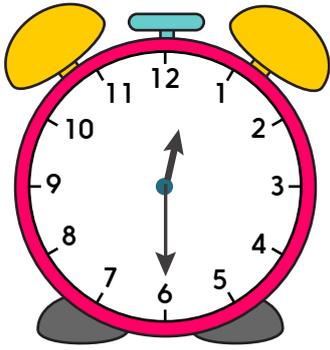

### Half an hour later

Pete the clock maker has set all of the clocks to the wrong time!  
They should all show the time half an hour later.  
Can you help him by drawing the correct time on the clocks?

### Time loop

*Work in pairs*

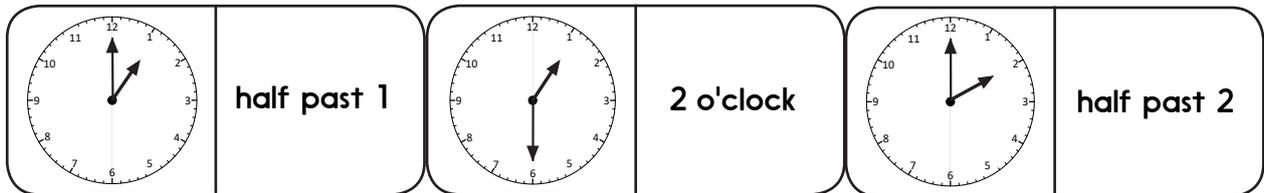

#### Things you will need:

- Time dominoes

#### What to do:

- Work together to match the time dominoes end to end. See how many dominoes you can match. It is possible to make a BIG loop using all 24 dominoes!

#### ***S-t-r-e-t-c-h:***

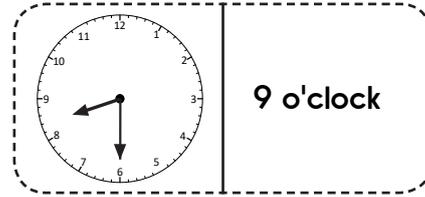

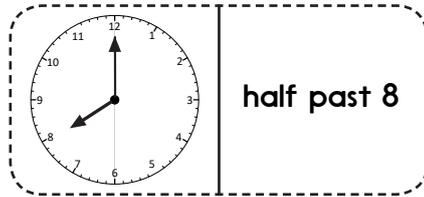

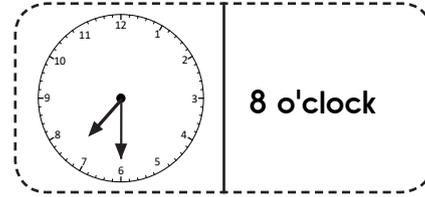

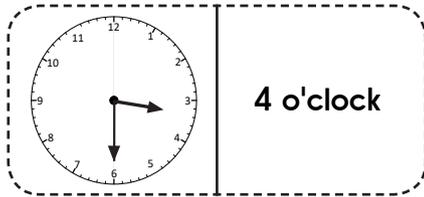

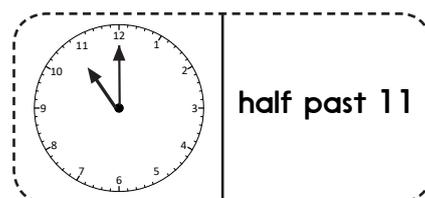

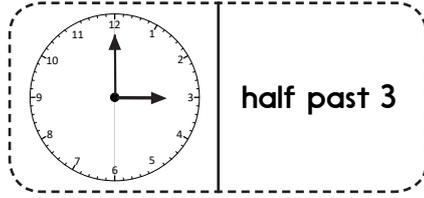

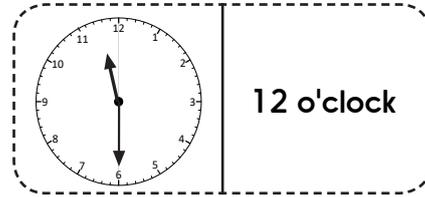

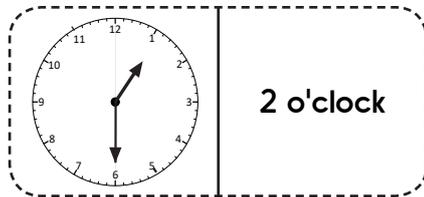

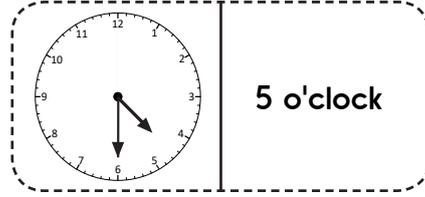

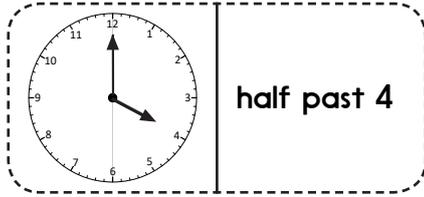

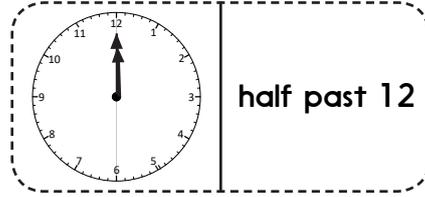

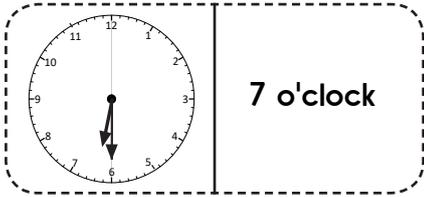

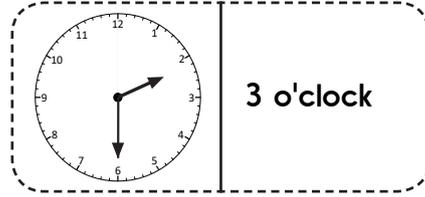

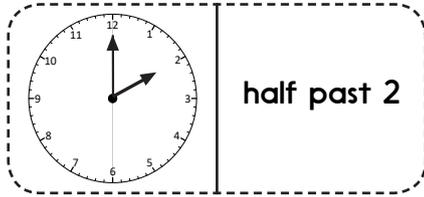

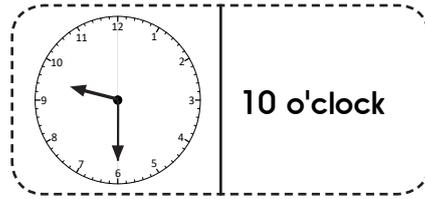

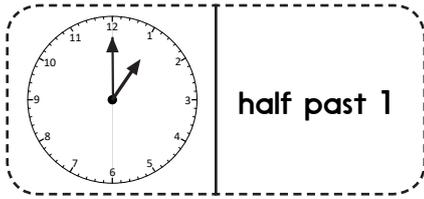

Use ALL the dominoes. Then count round the loop in steps of half an hour.

#### Learning outcomes:

- I can tell the time to the half hour on analogue clocks.
- I am beginning to say the time half an hour later.

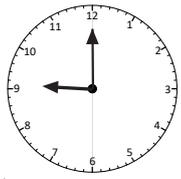

# Time loop

## Activity 1

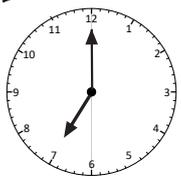

# Time loop

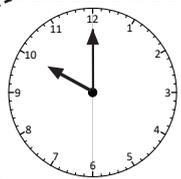

## Activity 1

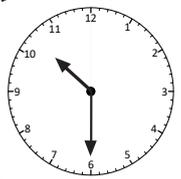

Half past 9

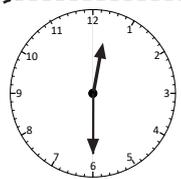

Half past 7

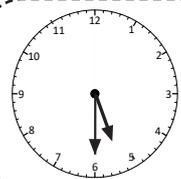

Half past 10

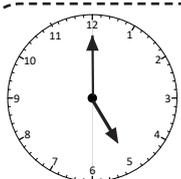

11 o'clock

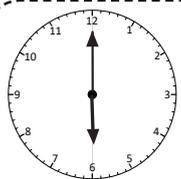

1 o'clock

6 o'clock

Half past 5

Half past 6

## Check your understanding: Questions

Write the time half an hour later:

2 o'clock

6 o'clock

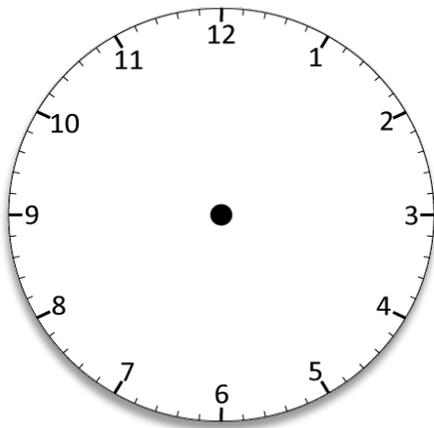

Half past 3

Half past 4

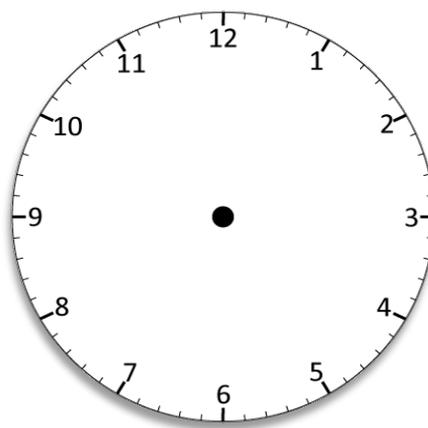

---

Draw these times on the clocks:

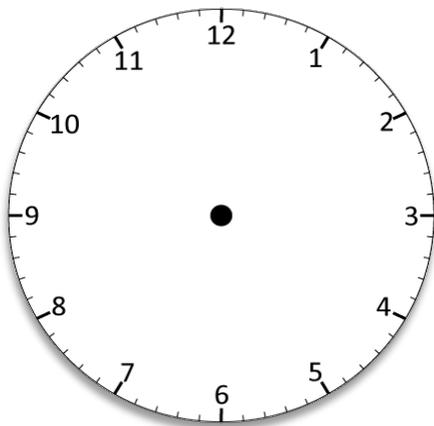

4 o'clock

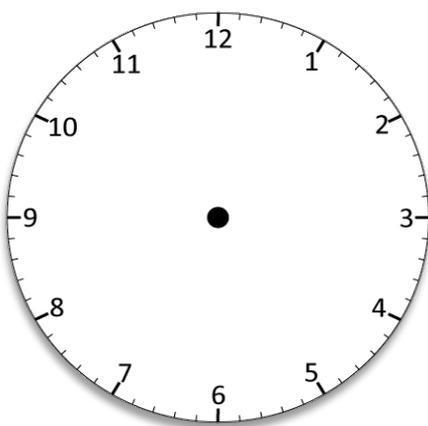

10 o'clock

half past 7

half past 9

## Check your understanding: Answers

Write the time half an hour later:

2 o'clock      half past 2

6 o'clock      half past 6

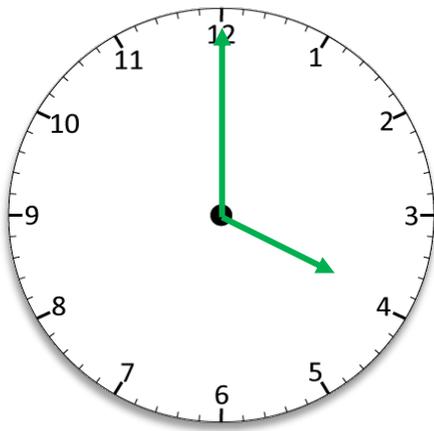

Half past 3    4 o'clock

Half past 4    5 o'clock

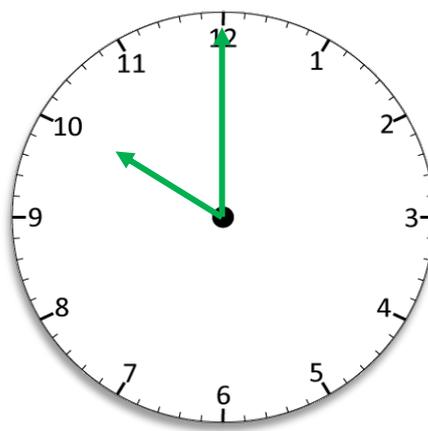

---

Draw these times on the clocks:

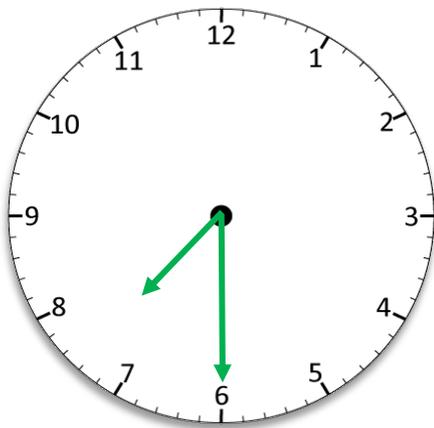

4 o'clock

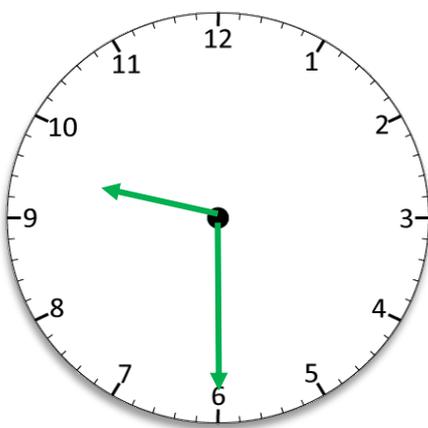

10 o'clock

half past 7

half past 9

Check that on the last two clocks the hour hands are as close as possible to half-way between the hours.
